

Please do NOT relax the rules for wisconsin's No Call List. We've been on it since it started and truly appreciate the stoppage of nuisance calls that no longer interrupt our family life. We have NEVER nor will we EVER purchase anything from a telephone solicitor including "special deals" from banks. So please don't let nuisance calls back in to our lives. It's bad enough that we get the massive amounts of junk mail that we have to deal with. Can you do anything about that? ;-)
